

ARMANROY
FOUNDATION

2026 SPONSORSHIP PROGRAM

Hello Champion of Hope!

Our sponsors make it possible for us to turn access into opportunity. Through your partnership, we are opening doors to 21st-century technology, skills, and pathways for K–12 students from underserved and historically underrepresented communities, including Black and Brown youth across Newark and the greater region.

To date, we have supported more than 80 projects across New Jersey and New York, creating meaningful learning experiences for over 6,000 young people. In 2026, we are expanding our reach and deepening our impact through closer collaboration with Newark-based organizations—working together to serve over 1,500 students through afterschool and summer STEM programming that builds confidence, creativity, and career readiness.

Our work closely aligns with your commitment to strengthening the communities where your employees live and work. We are **pleased to invite you to become a 2026 Sponsor** and join us in building a more equitable, innovative, and hopeful future for Newark’s youth.

The 2026 sponsorship levels and associated benefits are outlined in this program package. Your company will be recognized at our key 2026 events and throughout our year-round programming.

- June 8: 6th Annual Hope-In-One Golf, Phillipsburg, NJ
- Sept 13: 8th Annual 5K Run for Hope, Basking Ridge, NJ

Let's hear from the Community...

TORCON (SPONSOR)

Torcon has been an active supporter of the foundation since 2020 participating in several fundraising events. With shared values of Family & Community, Torcon and the Arman Roy foundation are making a meaningful impact in the lives of youth who may not have the resources or opportunity to pursue their dreams of a STEM education.

I want to thank the Arman Roy Foundation for putting together an amazing robotics workshop for our students. They had such a great time learning about all the different components of STEM and are still buzzing about how much they learned. I believe it is so important for them to have diverse experiences to spark their minds early and show them they can achieve anything they set their minds to.
